## Republican Committee Unanimously Backing Wattis For Governor

Weber County G. O. P. Decides to Go After Nomination and Get It, Not Accepting Any Lesser Honors

William H. Wattis was unanimously endorsed for the Republican nomination for governor at a meeting of the central committee held in Ogden yesterday.

The action of the committee pledges the undivided support of the entire Weber county delegation working as a unit and making use of every honorable political expedient to bring about his nomination.

It was the sense of the committee that in going out after the nomination for Mr. Wattis for the position of governor at a meeting of the Weber county delegation working as a unit and making use of every honorable political expedient to bring about his nomination.

W. H. WATTIS, of Ogden, leading Republican candidate for the nomination for governor of Utah.

nomination for Mr. Wattis for the position of governor at a meeting of the Weber county delegation working as a unit and making use of every honorable political expedient to bring about his nomination.

Furthermore it was the verdict that in order to center all efforts on getting the nomination for Mr. Wattis, the Weber Republicans should not divide their efforts by going after lesser nominations for other Weber Republicans.

The meeting was called for the purpose of issuing the call for primaries and arranging for the election of delegates. It is the sense of the committee that in going out after the nomination for Mr. Wattis for the position of governor at a meeting of the Weber county delegation working as a unit and making use of every honorable political expedient to bring about his nomination.

RESOLUTION INTRODUCED. After providing for the issuance of the call, the following resolution was introduced by J. J. Henderson:

The Republican County Committee of Weber County wishes to call the attention of the members of the party in this county and state, to the fact that Utah is confronted with financial, industrial and political problems of the gravest character. We feel that for the office of governor during the coming four years, will be required a man of the highest type of citizenship, of proved integrity and patriotism, and one possessing business experience and administrative capacity of the best order.

We assert that Weber county has such a man in the person of William H. Wattis. We commend him to the favorable consideration of the Republican state convention and urge the Republicans of this county to choose delegates who will work untiringly, making use of every honorable political expedient to bring about his nomination.

WATTIS IS CHERISHED. Every mention of Wattis' name evoked applause and cheering; numerous committeemen and committee women, according to the resolution, called attention to the special fitness of Mr. Wattis for this important office and urged united efforts in his behalf.

The committee authorized the calling of district primaries which will be held in the various districts of the county on August 12 at 8 p. m., to elect delegates to the county convention which will in turn elect the delegates to both the state and congressional convention.

The delegates to the county convention are apportioned on the basis of the vote cast for William H. Wattis for congress at the general election of 1916, each district being allowed one delegate for each 25 votes, or major fraction thereof cast for Mr. Wattis; each district is entitled to at least one delegate, regardless of the number of votes cast. This apportioning gives 103 to Ogden City and 49 to the county districts, making a total of 152.

The members of the county central committee of these districts with our Ogden City will arrange suitable places for the holding of said primaries in said districts and give due notice thereof.

## FOREST FIRES FEW THIS YEAR SECOND STOCK SHOW PLANNED

Federal Service Has Small Expenditure Thus Far in Fighting Blazes Preliminary Measures Being Taken for Event During January

While last year, because of intense dryness resulted in a record fire season for the forest service, the record in outlay of money for fighting fires being reached, a record in the other extreme is expected this season, according to information received yesterday from forest service officials.

J. E. Scott, national forest inspector, said that fire fighting expenditures for this season have been less than \$300. Last year at this time, an outlay of a million dollars or more had been made by the government in an effort to check forest fires.

Three small fires, caused by lightning, have occurred on the Targhee forest in the fourth district this year, Mr. Scott stated. Electrical storms caused the blazes, he said, but because of the abundant moisture within the forest, the fire did not spread greatly.

The situation in several parts of Idaho has been materially relieved by heavy rains. No fires in which the element of human carelessness has entered have been reported, except two cases on the Humboldt forest in Nevada.

A forest fire covering approximately 4,000 acres, has been reported on Dargatz creek, Idaho. This land is not included in the forest service boundaries, however.

Four-year-old Is Guest at City Jail

Johnny Jones, aged 4, was a visitor at the police station last evening. Johnny was rescued from in front of a street car by a woman, whose name was not taken at the police station, and was removed to the police station for safe keeping.

Although he constantly repeated, "I want my money," he spent his time by falling to break into tears.

Case Against Negro Goes Over in Court

Frank Glen, colored, who was charged with shooting at a Union Pacific brakeman after having been kicked off a passenger train, appeared in the city court yesterday morning. Because the brakeman, who swore out the complaint, failed to appear in time to testify against Glen, the case was continued.

Scientists Inspect Cottonwood Nursery

Dr. J. Arthur Harris of the Station for experimental evolution, Carnegie Institute, New York; Professor James Gortner of the University of Minnesota and Professor Henry Poole of the University of Nebraska, were visitors at the Cottonwood nursery of the forest service during the past week.

According to information given out at the forest service headquarters the professors were intensely interested in the work which is being carried out at the nursery.

## RUSS KIDDIES ON WAY HOME

Nearly 800 Expected to Pass Through Here on Route to Petrograd

Red Cross workers of Ogden will begin preparations next week for the arrival of nearly 800 Russian children, who are expected to pass through Ogden from San Francisco en route from Vladivostok to Petrograd, where, it is hoped, they will be returned to their parents and relatives.

When the revolution moved toward its height in Russia many fathers and mothers of Petrograd gathered their children into groups of twenty to a hundred, with nurses and teachers and sent them to the peaceful, rich areas of Siberia "for a few months, until the trouble has blown over."

Time came for the little wanderers to return to their homes. But, in the meantime, a barrier of fire had risen between them; a dead line formed of the entire battle fronts of the opposed Bolsheviks and Czech armies.

When hunger and war terrors confronted the wanderers the American Red Cross took over group after group, established colonies in Western Siberia and apparently solved the problem of feeding and housing its young charges. But as the battle line moved and the Bolshevik captured town after town where American Red Cross activities were in full operation, the children were moved to Vladivostok, thousands of miles away. Thence they were taken to Russia inland. Here they were given the best of care until they left on the Yomai Maru for San Francisco.

The colony had a dental clinic, a hospital and primary school classes. Thirteen of the larger girls took a course of training fitting themselves to become nurses aids in the American Red Cross hospital.

Some of the children included in the group have exceptional qualities of temperament and ability. Several have fine voices. One little girl, whose mother is a professional dancer, has a marked gift for the stage. Still another paints beautifully. The genius for mechanics possessed by many of the boys is shown in their toys, which are made of bits of wood with whittled sharp edged tool they can find.

## GRUB LARKSPUR TO SAVE STOCK

Forest Service and Cattle Men Cooperate in Combating Poisonous Weed

By grubbing 250 large sacks of larkspur from the bottom of Lime Kiln canyon, on the Targhee forest, 11 men working under the direction of Forest Ranger Arthur G. Nord, have materially relieved a condition dangerous to the cattle industry in that section, according to information received at the forest headquarters yesterday.

Last season, 60 head of cattle grazed on the larkspur and died, causing a loss of \$2,500 to their owners.

With the lateness of spring, this season, accompanied by the abundant growth of foliage, including larkspur as well as plants suitable for grubbing, the danger of larkspur poisoning to cattle became pronounced.

It was abundantly distributed over canyon bottoms and moist mountain slopes. The cattlemen, by immediately grubbing out the poisonous weed, have saved themselves thousands of dollars, it is reported.

Marriage Licenses Here Show Increase

Cupid was extremely active yesterday in the county clerk's office and after almost a week's vacation, during which time business in the matrimonial line was exceedingly dull, led four couples to the marriage license clerk, where they obtained an official permission to be wed. Licenses were issued to John Nunez and Miss Amy Haeblum, of Salt Lake; Clarence E. Smith, Soldier Summit, and Miss Gladys M. Loy of Manitou, Colo.; Frank M. Gaines of Roy and Miss Mary Firth of South Weber; Dewey L. Hawkins and Miss Elizabeth Hansen of Ogden.

Disbursements of Forest Service Shown

A report from the forest service of offices, regarding the disbursements of the office of accounts for the past fiscal year, shows that \$2,929,597.62 was paid out. A total of 12,745 vouchers were paid, and 28,949 checks were written.

Co-operative money, amounting to \$44,857.42, was received in the district. Transportation requests, numbering 2,132 and 17 duplicate checks were issued.

Complete Plans for Tri-State Outing

Final plans for the annual tri-state outing of the religion classes of the North Weber, Ogden and Weber stakes, which will be held at Lagoon Park, Wednesday, have been completed, according to an announcement made yesterday. A program of races, games, swimming, diving and other contests will open promptly at 2:30 o'clock, with cash prizes for the victors in each event.

Special train service has been arranged for the outing. Excursion tickets will be issued after 12:30 o'clock here.

## Sound Utah Business Men on "Ad" Mediums

The National Civic Federation with headquarters at New York, whose executive committee is made up of the heads of some of the leading organizations of the United States, has addressed a communication to the Utah Associated Industries in the form of a questionnaire. Chief among the questions submitted is the one bearing on the attitude of the business men toward the advertising and publicity. In other words it lays before the business man the inconsistency of their placidly advertising in any publication or in any way subscribing to organizations under whose shelter and through whose machinery a propaganda is disseminating which is contrary to our American ideals and institutions.
